

## **DRINKING WATER SYSTEMS NOTICE**

To The users of the Trent Hills Municipal Drinking Water Systems:

### Drinking Water Quality Management System (DWQMS)

NSF International Strategic Registrations is now the accreditation body under the Municipal Drinking Water Licensing Program (under the Safe Drinking Water Act) for the Municipality of Trent Hills water systems and DWQMS.

The internal audit of the Trent Hills DWQMS was completed on April 19 and 26, 2017. The external on site verification audit was completed on May 4 and 5, 2017. These audits are available for review on the municipal web site.

The Municipality has successfully maintained a Quality Management System under Ontario's Drinking Water Quality Management Standard certifying Trent Hills as an accredited operating authority in the Province of Ontario since 2010. Trent Hills received its Drinking Water Works Permit, Municipal Drinking Water License and Full Scope Accreditation for each of the Municipal drinking water systems in 2011. A financial business plan was completed and submitted in February of 2012 to the Ministry of Municipal Affairs.

Municipal Drinking Water Licenses must be renewed every five (5) years. The Municipality continues to meet all legislative requirements and has successfully renewed a Drinking Water Works Permit and Municipal Drinking Water License for each of the Municipal drinking water systems. As part of the renewal process, an updated financial plan is submitted to Ministry of Municipal Affairs.

### Regulatory Compliance

Please be advised that the most recent annual Ministry of Environment & Climate Change Compliance Inspection Reports for the Campbellford, Hastings and Warkworth drinking water systems are available on the Municipal web site.

Further, please be advised that the Municipal web site is continually updated to include the above changes pertaining to the Municipal Drinking Water Quality Management System. The Province mandates the development of Quality Management Plans, for all Municipal Drinking water systems. The Trent Hills Operational Plan was filed with the province and came into effect September 1, 2009.

For more information please see the Municipal web-site.
