## MUNICIPALITY OF TRENT HILLS PUBLIC INFORMATION CENTRE

### NAPPAN ISLAND BRIDGE REPLACEMENT

---

#### MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT - SCHEDULE B

---

The Municipality of Trent Hills is evaluating replacement strategies for the Nappan Island Bridge, located on Nappan Island Road, approximately 4.6km east of Highway 30. The project is being planned under **Schedule B** of the **Municipal Class Environmental Assessment Process**.

Structural and usability deficiencies have been noted and the Municipality is investigating the bridge's replacement. Detailed investigations of the bridge are underway and the results will determine appropriate methods of replacement. Some of the project alternatives being considered include: do nothing, bridge replacement at existing bridge with pedestrian facilities, construction of a new bridge to the east with pedestrian facilities and construction of a new bridge to the west with pedestrian facilities.

Public input and comment are invited, for incorporation into the Municipal Class Environmental Assessment process and the determination of a preferred alternative. Subject to comments received and the receipt of necessary approvals, the Municipality of Trent Hills intends to finalize the detailed design for this bridge by the coming winter of 2017 in advance of expected construction.

#### **PUBLIC CONSULTATION**

An integral component of this project is to undertake direct consultation with affected stakeholders, agencies and the general public. As such, a Public Information Centre (PIC) has been scheduled. The PIC will have an open house format, during which the Project Team will present conceptual design information relative to the project and address any questions or concerns.

**DATE:** Tuesday, October 10, 2017  
**TIME:** 6:00 pm to 8:00 pm  
**LOCATION:** Hastings Civic Centre  
6 Albert St E, Hastings, ON K0L 1Y0

If you have any questions or comments about the project, please contact one of the following Project Team Members for more information.
